"A Lens on Texas": How to order and Price List options

The four-volume complete set is almost 1,000 pages in total. As noted in the Summary of Contents, Volumes I-III are more 60/40 text heavy, covering the complete history of Texas with a variety of photo-essays, while Volume IV is a more text-light pure photobook of Texas Landscapes. Each Volume is printed in a large landscape format measuring 13" x 11" on high quality premium lustre paper suitable for providing the best reproduction of the photographic material. I personally custom-created the books using an online self-publishing platform by Blurb, one of the highest rated sites for self-publishing photo-books known for their professional design options. (I have made a number of photo-books through Blurb over the past several years.)

As you can imagine, books this size are costly to produce. That said, I have pre-purchased from Blurb a limited number of them at large discounts available only to me as author… a savings I pass along to interested customers … and can fulfill more orders with advance notice.*

To purchase a set, please contact Jerry Clark either by text (713-301-775), email (jerryclark7877@gmail.com), FB Messenger, or reply via my website.

Here are some options to acquire your own "A Lens on Texas":

1. *Get ALL 4 Volumes and PDFs: $850 ($875 shipped)*
2. *Get PDFS only $150*
3. *Want just one Volume … Like # IV "Landscapes"? $225*
4. *2+3: Get all 4 PDFs and one Volume $300*

- *Note, Books are also available on the Blurb Bookstore at Blurb.com. They occasionally offer storewide sales, but not as large as above.*
